

WILL THE U. P. EXTEND?

Strong Symptoms of Designs on the Deep Creek Country.

THE SURFACE INDICATIONS.

Traffic Manager Monroe and Mr. Eccles in Conference.

Mr. Monroe Says the Deep Creek Country is Rich, and a Road Will Be Built "Some Day"—Railway Notes.

For the first time in many years the question of building a road into the Deep Creek country is seriously agitating the heads of the high officials of the Union Pacific.

Several things have come to the surface within the last few weeks that point very conclusively to an organized movement on the part of the Union Pacific to head off any rival company that may under- take to construct a road to the west. The Union Pacific is in a position that it must either retrograde or progress. The agitation for a road to the rich mining camps in this section has gone beyond its control, and Messrs. Clark and Dickinson are aware that unless the Union Pacific builds this year, some other company will. It has already lost its prestige of having the only bathing resort on the Great Salt Lake. Had it gone ahead and built a hotel at Garfield Beach, as it should have done years ago, it is quite probable that the Salt Lake and Los Angeles company, which is now building a road to the Utah & Nevada gauge would cut it still more pliable and helpless spectacle, and the question is now whether the Union Pacific will abandon the field or change the Utah & Nevada gauge and extend it into the Deep Creek country.

CLARK FAVORS IT.

S. H. H. Clark has always favored the western extension and had he had his way the road would have been built years ago. Now that he is again established as the supreme head of the Union Pacific, it is quite probable that he will revive his old plans and devise means to start in for an aggressive western movement.

STATISTICS ON THE TRAFFIC.

THE HERALD has already apprised its readers of S. W. Eccles' calling for statements from representatives of mining men in the various Deep Creek camps for the purpose of securing statistics to submit to President Clark and General Manager Dickinson and also of the fact that a party of surveyors, said to be sent out by Union Pacific officials, who are now working their way westward into the Deep Creek country.

J. A. Monroe, the general traffic agent of the road, arrived in the city yesterday, and he was escorted until a late hour last night at Mr. Eccles' at the Hotel Tompkins. At this meeting, it is said that Mr. Eccles submitted all the figures he had secured as to the amount of freight the mining camps could probably furnish to a railroad built into that country. Mr. Monroe's services were necessary, as he could easily forecast an estimate of probable earnings based on the mileage and tonnage. It is also quite likely that Mr. Monroe will make out a tariff schedule which Mr. Eccles can use in securing contracts from the mine owners, thus securing for the Union Pacific the bulk of the business should an opposition road be built.

MR. MONROE TALKS.

After two efforts to reach Mr. Monroe, a HERALD reporter was accorded an interview, but not until a late hour last evening.

Mr. Monroe was in a very cheerful frame of mind, and at once began talking about his trip to Spokane, where he had a long interview with representatives of the Great Northern, at which meeting the threatened war in rates was all amicably settled.

"Yes I always stop at your city when passing this way," said the mathematical diplomat in his most suave and complimentary manner.

"It is interesting that your visit to this city is for the purpose of formulating a schedule of rates for the proposed road to Deep Creek?"

"It will be time enough to get out a tariff schedule after the track has been laid," said Mr. Monroe.

"The Deep Creek country," continued Mr. Monroe in his most general and evasive manner "is said to be very rich, and some day a railroad will no doubt be built there."

Mr. Monroe has been absent from his home at Omaha for more than a month, and he is anxious to return as soon as possible. But he has business here of such urgent and pressing importance that it will take him until Saturday to complete it.

Those who are familiar with the rapidity of Mr. Monroe in dealing with traffic figures can realize the amount of business he will transact in the twenty-four hours he is to remain in the city.

RAILWAY NOTES.

W. H. Snodcker, general agent of the Rio Grande Western at San Francisco, is spending a few days in the city.

General Freight Agent Babcock and Passenger Agent Bennett of the Western took a trip over the road yesterday.

The Union Pacific has made a one and one-half rate to the city, and at a meeting of the Utah presbytery. The rate applies to all Utah points.

THE POLYTECHNIC MEETING.

The Selwyn Process Will Be Illustrated and Conducts for Wires Discussed.

The regular monthly meeting of the Polytechnic Society of Utah will be held at the society's rooms in the Progress block this evening. The subjects for discussion are: "The Selwyn Metallurgy," discussed by Admiral Selwyn; "Underground Conduits for Electric Wires," and other matters, and the meeting will illustrate his description of the Selwyn process for the separation of ores with laboratory apparatus, giving an actual demonstration of his method.

Every prominent electrician in the city has been invited to be present and take part in the discussion of the electric wire conduit subject. There will also be present several visiting engineers and others interested. The public is invited to attend, and a special invitation is extended to the ladies.

ATTRACTIVE KITCHENS.

The woodwork of a kitchen should be as simple as possible, so that it may be kept scrupulously clean. The sink is often made of enameled iron, either white or pale blue color. It is supported on recessed legs, so that every portion of the plumbing is exposed. The importation of the German-looking utensils in blue and white "swivel mouster" pattern is to be welcomed. Not only are there dainty spoons, soup ladles and skimmers, which may be hung on a rack near the stove, but boxes of all kinds to hold salt, pepper, grains and nearly all the dry groceries needed by the cook are to be found in this same pattern, and labeled. They are arranged so that they may be set in the dresser, or in the case of the salt or spices that are in hourly requisition, they may be hung upon the wall. These earthenware boxes are not only very con-

venient, but they add a picturesque bit of color to the kitchen. It is a great mistake, however, to use anything in ornamenting the walls of a kitchen which is not strictly utilitarian.—*New York Evening World.*

FORCEFUL MATRIMONY.

Napoleon forced his marshals and courtiers to marry whether they would or not. Marshal Berthier long escaped, claiming he was as good as married to Mme. Visconti, a noble Italian lady. His devotion to her was stupendously idiotic.

During the campaign in Egypt he set up a tent next his own, in which he placed an altar on which he daily burned incense to her picture. He was really anxious to marry her, but she declined for the odd reason that, although she was willing to be married, she was not willing to be married by a low-born man like Berthier.

This was hard enough for the marshal to bear, but when Napoleon was marvelous even for that day, and on one occasion when a more than usual display of her frivolity occurred, Berthier rushed off in rage to Napoleon and announced his willingness to be wed, whereupon the emperor picked out a wife and sent him to church with her forthwith.

POSTAL INFORMATION.

Extracts from the Postal Laws Regarding Mailable Matter.

Foreign Postage Table—To most of the countries of the civilized world there is no postage (except Canada and Mexico) as follows:

LETTERS. *Cents.*
For 35 grams (½ ounce)..... 5
Postals cards, each..... 5
Newspapers and other printed matter per two ounces..... 1

COMMERCIAL PAPER.
Packets not in excess of ten ounces..... 5
Packets in excess of ten ounces, for each two ounces or fraction thereof..... 10

Registration fee on letters or other articles..... 10
That the working class, particularly those of foreign birth, are not aware of the fact that merchandise cannot be sent through the mails, unless prepaid at 5 cents per one-half ounce or fraction thereof, to countries outside of Canada and Mexico, is particularly noticeable.

Pairs of articles, two or more articles of exact counterpart, handkerchiefs, scarves, neckties, articles of wearing apparel, perfectly whole and complete in themselves, whether sent in execution of an order or as a gift, can not be considered any sense as sent in parcels, and can not be sent through the mails to foreign countries, unless prepaid at 5 cents per half ounce or fraction.

Christmas and New Year's cards and photographs with frames, or articles bearing Christmas or New Year's greetings so elaborate in their design as to have an intrinsic value outside of the sentiment attached to them, such as satin pin cushions, celluloid calendars, plaques, greetings in frames, cannot be sent through the mails to countries outside of Canada and Mexico, unless prepaid at 5 cents per half ounce or fraction.

Wrapping—The use of a poor quality of wrapping paper for sending parcels through the mails should be avoided. Packages should be wrapped in strong wrapping paper and tied with strong twine. It is not necessary to leave any part of the package exposed; it could be so wrapped that it can be untied and examined without breaking a cord.

The address should be written plainly and legibly upon the package within 1½ inches of the top. The name and address should not be used, as they frequently become torn and detached from the packages.

The sender's name and address should always appear on every article sent through the mails, preceded by the word "from." If the above rules were observed few packages would go astray in the mails.

Packages of merchandise having a sample value, whether sent as presents or not, can not be sent through the mails to foreign countries, except by registered mail. Articles of any kind otherwise mailable, which contain any writing, and are not paid in full at the letter rate of postage, can not be sent through the mails to foreign countries other than Canada and Mexico.

Articles of jewelry and coins cannot be sent through the mails to foreign countries. Sealed packages (not letters), addressed to Canada and Mexico, can not be sent through the mails. Photographs, pictures and printed matter can not be closed against inspection.

\$3,000

Was Expended by Mrs. J. H. Banks Trying to Get Relief. She Has Doctored in Denver, Los Angeles, San Francisco, Santa Barbara and Salt Lake, With Several Different Physicians, But

Drs. Mansfield & De Monco Are the First to Believe Her Suffering, and the Change Has Taken Place in Only Two Weeks' Treatment.

"After suffering several years with catarrh of the head and stomach, after spending \$3,000 with several different physicians, after I had given up all hope of ever getting relief, I at last have found what I have so long sought, relief. No one knows how much I suffered unless they are afflicted as I was," said Mrs. Banks, in conversation with the writer.

MRS. J. H. BANKS, No. 51 North First West St.

"I suffered with severe head aches, which continued me in bed, usually about two days each week. My nose was continually stopped up. The mucus dropped into my throat. My throat became sore from irritation caused by hawking, trying to remove the mucus that would stick fast there, and my ears had ringing and roaring noises in them at times."

"I was troubled with pains under the shoulder blades, and a numb feeling in my left arm. My stomach was in very bad condition. I could not eat, and I would vomit up all the food I ate, and would vomit up all the food I ate, and would vomit up all the food I ate."

"I have only been under treatment two weeks and I feel like another woman already. They have performed what many other physicians whom I have paid enormous fees could not. They have removed the mucus which I have been traveling and expending so much money to obtain. My stomach has improved from the start. Besides, the mucus has been removed from the start. Besides, the mucus has been removed from the start. Besides, the mucus has been removed from the start."
